Local Service

John Weygang Optometrists is a local business, established in Gloucester since 1971 committed to providing a high standard of eye care at home.

We will visit you in the comfort of your own home or residence to conduct a thorough eye examination, using the latest portable diagnostic equipment. Many people overlook the care of their eyes, but did you know, a routine sight test can identify some problems at an early stage. Older people in particular are susceptible to disabling eye conditions including

- Glaucoma
- Cataracts
- Macular Degeneration
- Diabetes

Testing is critical to ensure any changes can be managed appropriately – this in turn can lead to a large improvement in the quality of life.
